Five friends were chatting one night and discovered that each of them has a favorite TV show that airs one night during the week．By coincidence，each of them loves a different show；each of which airs on a different night and channel．Determine the full name of each friend，the genre their favorite show is in，the night each show airs，and the channel the show airs on（one is channel 6）．

1．Harry didn＇t watch a show on Friday night．Mr．Green watched his favorite show on channel 21，the highest－numbered channel．The favorite shows airing on Tuesday and Thursday night were on channels one number apart．

2．The man who watched the western show on channel 7 didn＇t watch TV on Wednesday night．Jake watched a channel one digit lower than the man who watched the sports show．

3．Mr．Plant watched the show on channel 5 ，the lowest－numbered channel．The science fiction show aired on channel 12.

4．Dick didn＇t watch TV on Monday night．Mr．Weed didn＇t watch the sitcom．Harry didn＇t watch the sports show．

5．Frank＇s favorite show aired on a channel higher than the Tuesday night show but lower than the show that Karl watched．

6．The five friends watched their favorite shows during the week in the following order：Jake，the man who watched channel 7，the man who watched the mystery，Mr． Leaf，and Mr．Marsh．
