## Young Equestrians

by Shelly Hazard

## Print＇n＇Play Text <br> and Table of Results

Cindy had horseback riding lessons twice a week and she loved them．Her riding instructor told her that she had a natural talent for riding．She＇d been riding for several years now and had graduated to a smaller，more advanced class．The students in her class all had their own horses and by some strange coincidence， all of the horses had different coloring．Determine the first name and age of each student in Cindy＇s class（the students were between 17 and 22 years old），and the name and coloring of each student＇s horse．

1．Cindy didn＇t ride a white horse but she was 17 years old．Tracy didn＇t ride Fireball．

2．Tony was older than the student riding Fireball but he was also two years younger than the student riding the pinto．

3．Sunny was a white horse but he wasn＇t ridden by Tracy．The 19－year－old student rode Dynamite，who wasn＇t a palomino．

4．Linda didn＇t ride Sassy，whose coloring wasn＇t sorrel．
5．The palomino was ridden by Tom，who was two years older than the student riding Beauty．

6．The student，who wasn＇t Linda，riding the black horse was two years older than Fireball＇s rider．
